SPECIFICATION BHT

Antioxidant

Chemical Name	2,6-Di-terbutyl-4-methyl phenol
Molecular Formula	$C_{15}H_{24}O_2$
Molecular Structure	
Molecular Weight	220.36
Gravity	1.048
CAS NO.	128 - 37 - 0

Specification

	Food Grade	Industry Grade
Appearance	White Crystalline	
Melting Point °C \geq	44.0	44.0
Free Cresol % \leq	0.50	0.50
Ash % \leq	0.50	0.50
Moisture % \leq	0.10	0.05
Heavy Metal (as Pb) % \leq	0.0004	Untested
Arsenic % \leq	0.0001	Untested

Packing 25 kg/bag

Storage Life 24 Months

Properties

It is soluble in benzene, toluene, alcohol, acetone, carbon tetrachloride, ethyl acetate and gasoline. Insoluble in water or dilute aqueous soda.

Uses

This product can be used as antioxidant for various petroleum products. Its solubility in oil is good, it doesn't have influence on the color of oil, widely used for rubber processing to increase the stability.
